**Texas & New Mexico Hospice Organization and Accreditation Commission for Health Care Form Partnership**

**Cary, NC-** Accreditation Commission for Health Care (ACHC) is excited to announce its new partnership with Texas & New Mexico Hospice Organization (TNMHO). This agreement allows TNMHO members to receive special pricing on ACHC's Hospice Accreditation services, as well as discounts on ACHCU educational resources that help prepare association members for ACHC Accreditation.

"We at ACHC are excited to launch our partnership with Texas & New Mexico Hospice Organization, and we're truly looking forward to offering their members resources and education that will enable them to enhance their already high-quality patient care," said Matt Hughes, ACHC Director of Business Development.

TNMHO is the largest and oldest organization in both Texas and New Mexico that focuses solely on hospice. Unlike other organizations that are putting efforts into multiple industries, TNMHO's dedication to only hospice allows them to offer their customers the most comprehensive education and weekly updates, all designed to assist with navigating the continuously changing hospice industry.

"The Texas & New Mexico Hospice Organization is proud to announce this partnership with the Accreditation Commission for Health Care," said Larry Farrow, TNMHO Executive Director. "Our members in both Texas and New Mexico provide exceptional service to hospice patients. As a champion of quality, ethical hospice care, TNMHO is excited to work closely with ACHC to improve access and affordability in the accreditation process. Supporting hospice providers who are committed to excellence and integrity makes a difference, both for the broader hospice community, and individual patients."

ACHC is a nonprofit accreditation organization with CMS Deeming Authority for Home Health, Hospice and Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS), with a Quality Management System that is certified to ISO 9001:2015. We were created for providers, by providers, to deliver a better accreditation experience. Since 1986, ACHC has offered a collaborative and consultative approach to accreditation, empowering providers to enhance patient care through service-specific standards and industry best practices.

ACHC's Partnership Program allows us to work closely with organizations like TNMHO that share in the same mission and objectives. We continue to partner with healthcare organizations with different, yet complementary strengths, allowing us to offer providers access to the best industry resources.
