ACHC Completes All DMEPOS Surveys before CMS Deadline

Raleigh, NC - The Accreditation Commission for Health Care, Inc. (ACHC) has completed all accreditation surveys for DMEPOS providers who applied with ACHC before January 31, 2009, as well as several providers who applied after the January deadline. The surveys were completed before the CMS mandatory accreditation deadline of September 30, 2009. ACHC surveyors and account managers have been very busy the last few months working with providers and assisting them through the accreditation process. Matt Hughes, Accreditation and Business Relations Manager, credits ACHC's success to preparation months prior to January, including hiring additional surveyors and interns. These measures ensured the process went smoothly and efficiently without sacrificing the quality of accreditation and excellent customer service that ACHC is known for.

ACHC is a not-for-profit organization that has stood as a symbol of quality and excellence since 1986. Accreditation by ACHC reflects an organization's dedication and commitment to meeting standards that facilitate a higher level of performance and patient care. ACHC is the provider's choice for accreditation because of personal account managers, relevant and realistic standards, competitive pricing and a friendly, consultative approach to accreditation.
