ACHC Announces new Sleep Lab Accreditation Program

ACHC, The Accreditation Commission for Health Care, is pleased to announce a new sleep lab accreditation program. Approved for DMEPOS accreditation from the Centers for Medicare and Medicaid Services, ACHC's sleep lab program was created specifically for freestanding and hospital based sleep labs and includes the clinical aspect of patient care focusing on the testing of a patient.

ACHC is a not-for-profit organization that has stood as a symbol of quality and excellence since 1986. Accreditation by ACHC reflects an organization's dedication and commitment to meeting standards that facilitate a higher level of performance and patient care. ACHC is the provider's choice for DMEPOS accreditation because of personal account managers, relevant and realistic standards, competitive pricing and a friendly, consultative approach to accreditation.
