

ACHC & HFAP

ADVANCING HEALTHCARE INNOVATION

The merger of ACHC and HFAP provides another comprehensive source for accreditation needs across the continuum of care. As one company under the ACHC brand, the combined services open possibilities for healthcare providers, giving organizations greater value and convenience in meeting strategic business goals and broadening plans for the future.

PROGRAMS

Market-leading solutions, expanded options

HISTORY

Long-trusted stewards of quality care

ACHC was founded in 1986 by home care industry leaders to create an accreditation option sensitive to the needs of small healthcare providers in North Carolina.

Today, ACHC offers a variety of accreditation programs and services across the globe, and remains steadfastly committed to providers, customer service, and high-quality patient care.

CARY, NC

HFAP originally was created in 1945 to conduct an objective review of services provided by osteopathic hospitals. Seventy-five years later, HFAP now offers a variety of accreditation programs and certifications to promote safe, high-quality patient care across a range of settings.
