ACHC and Accurate Accreditation Form Partnership

CARY, N.C. – Accreditation Commission for Health Care (ACHC) announced today it is partnering with Accurate Accreditation, a leading accreditation software solution for ambulatory surgery centers. This partnership provides assistance with survey preparation and ongoing compliance for ASCs that are both ACHC and Accurate Accreditation customers.

“This partnership highlights the streamlined approach to ASC Accreditation that has been at the core of our process since we achieved deeming authority in 2003,” said Matthew Hughes, ACHC Vice President, Corporate Strategy. “We look forward to continuing to bring our clients excellent value and a simple, straightforward accreditation experience through this partnership.”

ACHC clients gain a centralized accreditation software solution – with comprehensive preparation, reminders, dashboards, and analytics – that helps them not only obtain but also maintain compliance with Centers for Medicare & Medicaid Services (CMS) regulations and ACHC Standards.

“At Accurate Accreditation, we understand that keeping up with accreditation and compliance can be a daunting task, and that’s why we’ve designed our software to access all of your data immediately,” said Accurate Accreditation founder Lisa Whitlatch, MHA, R.T.(R),(M),(BS). “Our software organizes your data in the most efficient, useful, and compliant way, eliminating the need for papers, binders, files, logs, and Excel spreadsheets. The best part? It’s Surveyor-approved!”

As a result of this collaboration, ACHC customers will receive a 30% discount on the standard subscription price for Accurate Accreditation software solutions for ambulatory surgery centers.

About Accurate Accreditation

Accurate Accreditation is compliance software that was developed by a veteran ASC Administrator and centers staff attention on the necessary tasks to maintain accreditation, ultimately enabling staff more time to focus on patient care. The cloud-based platform is intuitive and a great fit for organizations from small surgery centers all the way to large ASC management groups.
